ethos® Modular with Omnicoat Technology®

- Omnicoat Technology
- Saves time & money
 - No need for removal of pre-existing incompatible adhesive as long as they are flat, with TarkettTAPE[®], and provided there is no evidence of microbial growth or saponification.
 - No need for moisture or pH testing when installed with TarkettTAPE, provided there is no evidence of free liquids
 - Residual cutback and residential carpet adhesives can release oils that Omnicoat is inert to

Safer & healthier installation

 Reducing floor prep minimizes worker exposure to chemicals, resulting in a safer, healthier installation ethos Modular with Omnicoat Technology is a standard backing for all modular products

ethos® Sustainability

- Cradle to Cradle ® Silver
- Declare Label
- Red list free
- Living Product Challenge
- NSF140 Platinum
- Product Specific EPD
- Phthalate Free
- Carbon Neutral

Make a Positive Impact with Us

Designing for Life

Closing the Loop

Driving Collaboration

Sustainability-Driven Manufacturing

50%

of our US facilities use renewable electricity

Zero production waste in our facilities by 2020

0

27%

of our total global energy consumption comes from renewable energy sources

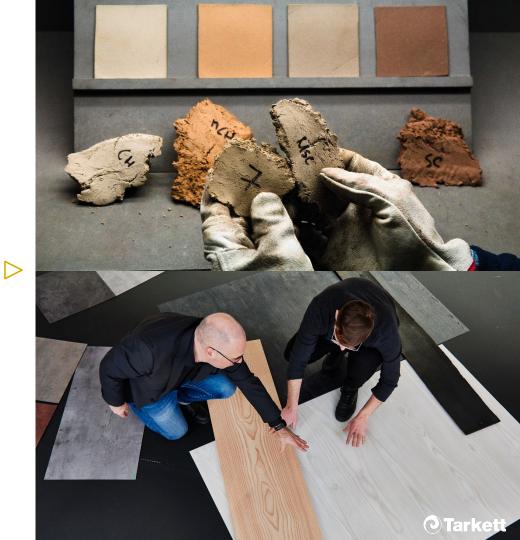

Circular economy: Cradle to Cradle® The methodology we live by.

98% of our materials

are independently assessed

22 certifications

As of 2020, we have 6 gold, 9 silver and 7 bronze Cradle to Cradle™ certifications

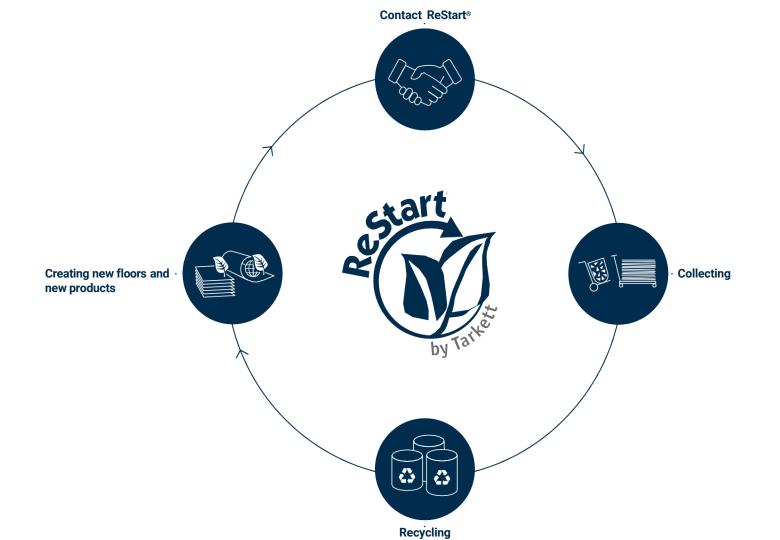

We've already collected 105,000 tons of vinyl, linoleum, and carpet for recycling from 2010 to 2019 in Europe and North America.

In 2019, 3,300 tons were collected and we are innovating to increase collection and recycling of post-consumer flooring in order to use fewer virgin resources.
