

Just when we thought it was not possible to care more about Indoor Air Quality, we found a way!

#### HOW IT WORKS

Commercial grade dual fan system pulls air in from the workspace through 5 layers of filtration.

Generating 4-5 Filtered air exchanges for each employee per hour!

#### CREATING A HEALTHY WORKPLACE

By installing Clean ZoneZ, you will:

- Create peace of mind
- Eliminate unnecessary sick days
- Improve alertness and cognitive thinking
- Increase productivity by 61%
- Make employees feel appreciated
- Reduce the impact of allergies

#### FROM THE EXPERTS

**Dr. Gregory Polard** from the Mayo Clinic recommends using a personal air filtration device to help ensure you maximize the number of clean air exchanges in shared spaces.

"The more air exchanges and the cleaner the air, the lower the risk."

**The EPA** Air cleaners and HVAC filters can help reduce airborne contaminants including viruses in a building or small space.

**Joseph Allen, Professor of Exposure Assessment Science at Harvard University** Recommends personal air filtration units.

"It's a simple plug and play solution in that area."

We know the safety of your facility and well-being of employees is a top priority, now more than ever. Let's work together on a customized plan for your unique space.
